

AGILE CUP 2026

S W E D E N

6 hours endurance racing at MSLS in Sweden

DRIVER'S INFORMATION

About Agile Cup 2026

The Agile Cup brings the Agile SCX to true head-to-head endurance racing. Competing alongside the established MSLS series, the championship is built around equal machinery, driver skill, and pure performance.

Six race rounds across four of Sweden's most iconic circuits create a focused and competitive championship environment.

Agile Automotive delivers a complete Arrive & Drive solution. Car preparation, logistics, engineering, and trackside support are fully managed by our team — allowing you to focus entirely on driving.

More than a race series, the Agile Cup is a community of committed drivers sharing the same philosophy: lightweight engineering, mechanical purity, and real racing.

Overview

Format

1-day event with 7 hours track time

- 1 hour practice and qualifying
- 6-hour race

Team structure

Min. 2 drivers, max. 6 drivers,

3 is optimum, still with lots of driving time

- Rest minimum 60 minutes
- Stint maximum 90 minutes

The Agile "Arrive & Drive" package

Agile Hospitality Tent & Community

The Agile Hospitality tent is the heart of our paddock, offering a welcoming environment where drivers can relax, prepare, and connect with fellow Agile enthusiasts in a professional and friendly atmosphere.

What do I need to bring?

We make the experience simple and enjoyable – you only need to bring your helmet and race suit. Everything else is prepared and ready for you.

Full Hospitality Included

Enjoy quality food, drinks, and access to the driver's lounge throughout the event, ensuring you stay comfortable, focused, and ready to drive.

Professional Mechanical Support

Our experienced Agile Automotive mechanics and engineers are on site with dedicated repair stands, providing full preparation, servicing, and support throughout the event to keep the cars running at their best.

Arrive. Drive. Enjoy.

Agile Automotive

Agile Automotive is a Danish sports car manufacturer founded in 2016, built on a clear philosophy: lightweight construction, driver focus, and pure driving joy. At the heart of the company is the Agile SCX, an ultra-lightweight carbon-fibre sports car designed to deliver an authentic, uncompromised driving experience on both road and track. By combining advanced materials, a stiff carbon fibre monocoque, and a proven Ford EcoBoost drivetrain, Agile SCX achieves exceptional performance, with some versions weighing as little as 580 kg and offering up to 300 HP. Production is highly exclusive, limited to just 20 road cars per year and 99 in total, making each car a rare and personal creation. Agile Automotive's mission is to bring back the essence of driving, creating not just cars, but a passionate community where owners and drivers share a unique and engaging motorsport experience.

Agile SCX Road car

Agile Automotive offers two road legal versions of the Agile SCX, combining phenomenal handling and acceleration with everyday usability.

Built around a full carbon fibre structure and powered by a reliable drivetrain from Ford, the car delivers low weight, high rigidity, and excellent safety, providing a lightweight and high-performance driving experience on road and track.

Specifications:

Type: Open two-seater mid-engined sports car

Monocoque: Carbon fibre

Bodywork: Carbon fibre

Front crashbox: Carbon fibre

Suspension: Double wishbones and adjustable KW dampers

Brakes: Cast iron discs and aluminium callipers

Engine: 1,6L Ford EcoBoost 225 hp or 270 hp, both EURO6 approved

Transmission: 6-speed manual gearbox

Weight: From 580kg dry, 40/60 distribution

Acceleration: 3,5/3,0 sec at 225/270 hp

Top speed: 230/240 km/h at 225/270 hp

Agile SCX Race car

The Agile SCX Race car produces between 225hp and 300hp, delivering exceptional acceleration and precise handling with a potential power-to-weight ratio of up to 800hp per ton.

Its full carbon fibre monocoque ensures very low weight, high rigidity, and excellent driver protection. Combined with carbon fibre construction and a reliable drivetrain from Ford, the Agile SCX offers a lightweight, safe, and high-performance racing experience.

Specifications:

Type: Open two-seater mid-engined sports car

Monocoque: Carbon fibre

Bodywork: Carbon fibre

Front crashbox: Carbon fibre

Suspension: Double wishbones and adjustable KW dampers

Brakes: Cast iron discs and aluminium callipers

Engine: 1,6L Ford EcoBoost
225/270/300 hp

Transmission: 6-speed manual gearbox

Weight: From 580kg dry, 40/60 distribution

Acceleration: 3,5/3,0/2,8 sec at 225/270/300 hp

Top speed: 230/240/250 km/h at 225/270/300 hp

Agile SCX Prototype

This is the very first Agile ever built, it is the Prototype, it is unique and a real race driver's car as it comes without any assistance, meaning no ABS, no ESP, but 300 HP kicking in at high RPMs! It is a bit rough at the edges, and it doesn't look exactly like the other cars, but it is a blast, and it's really fast.

All damage is covered by the driver.

Up to 3 seats are available.

Bo Ørbjerg

+45 29206011

oerbjerg@gmail.com

Agile SCX 001

This is a beautiful classic racing green colored Agile, it has 225/270 HP ABS and ESP and has been through a thorough testing schedule as it stands mother for all the road-approved Agile SCX cars.

All damage is covered by the driver.

Up to 4 seats are available.

jonas@drivingevent.com

Agile SCX 004

Agile SCX 004 is one of the cars that has seen the most track time and variation, including Spa Francorchamps, Bilster Berg plus most Danish and Swedish tracks. This is the first Agile car to have participated in a race. Entering as an unmodified road car in two 6-hour races, both of which were completed, and in the second race, it ended up in second place. It comes with 225/270/300 HP, ABS and ESP + race brakes.

Experienced drivers only. All damage is covered by the driver.

Up to 2 seats are available.

Contact:

Tim M. Hansen

tmh@agileautomotive.com

Agile SCX 005

This is the factory test and demo car. It has done a lot of track kilometres and been at Spa Francorchamps, Nordschleife and Circuito Mike G Guadix, among others. This car is meant for potential customers who wish to test an Agile in race conditions, for journalists and for racing drivers. It comes with 225/270 HP, ABS and ESP.

All damage is covered by the driver.

Up to 6 seats pr. race are available.

Contact:

Tim M. Hansen

+45 23966090

tmh@agileautomotive.com

Agile SCX 006

Agile SCX 006 completed its first track kilometres at Circuito Mike G Guadix, right after the initial 500km low-power road run-in, and it performed flawlessly. It comes with 225/270/300 HP + ABS and is ready to race.

All damage is covered by the driver.

1 seat is available.

MellanSvenska LångloppsSerien (MSLS)

The idea behind this series is to allow you to go racing without being a millionaire. The series is organised by Östgöta Racing. The races usually last 6 hours, with multiple drivers across different teams, and the goal is to complete as many laps as possible within the allotted time.

The races are held at various racing circuits across central Sweden, with most taking place in Östergötland, which has a long motorsport tradition.

Agile SCX track test

Agile SCX track test

Agile Benelux House of Speed

At House of Speed, we take pride in offering cars that are built to make you smile. Our focus is the Agile SCX, a car defined by speed, precision, and pure driving thrill.

While we also offer other carefully selected sports cars. Agile represents the heart of our passion – delivering pure joy behind the wheel.

Our core values drive us: sharing passion, delivering quality service, mutual respect, and attentive listening.

We regularly host track days and exclusive events, allowing drivers to experience the full potential of Agile and become part of the community.
